WELCOME TO JUNIOR COLLEGE

On behalf of the faculty and staff of the Junior College I extend a most cordial welcome. We are delighted to have you join us.

Here you will not find the traditional ivy covered walls and in some respects our facilities may be limited. We have, however, attempted to secure for you the finest faculty available.

A college education is more than the accumulation of credit. It is far more than a series of social activities. It consists of a balance of educational and social experiences which should result in what we visualize to be the educated man or woman.

If you are sincerely interested in securing a college education, we in the Junior College of Broward County will do everything possible to assist you.

We hope your stay with us will be a pleasant one and that you will be happy you decided to attend this institution.

Sincerely yours,

JOE B. RUSHING, *President*

FIRST SOME INTRODUCTORY MATTERS

Why Pay the Price of a College Education?

A college education represents one of the most enduring and expensive investments an individual will make during his lifetime. No one would be naive enough to suggest that a college education insures successful living, but there is considerable evidence that men and women who have paid the price of a college education have not regretted their decision. In one recent study 98% of the people who had attended, but not necessarily graduated from college, indicated that they had profited greatly from the experience. It may be well for the man or woman considering a college education to consider what it will cost them in terms of time, effort, and expense and weigh the relative advantages and disadvantages as they determine whether or not a college education should figure prominently in their future planning.

Someone has said that a well-rounded college education can make a positive contribution to three aspects of your future life. It can make a contribution to the kind of person you want to *be*. As our world has become more complex and more interrelated, it is becoming more and more important that we understand ourselves, other people, and the various forces which contribute to the ongoing of our universe and our way of life. A liberal college education can help you at this point.

Similarly a college education can make an enduring contribution to what you want to *do* for the remainder of your working life. Most of us will have to work for the better portion of our life. Many of us will be physically able to work longer than did our forefathers. It is important that we make a wise vocational choice. It is important that we have the best possible preparation for the vocation we choose.

Finally, a college education can make an effective contribution to making the world of the future the kind of a world and the kind of a future we want it to be. Though it is clear that Education in and of itself cannot resolve mankind's total problems there is much historical evidence that many of man's continuing problems are directly or indirectly related to a lack of an adequate education. More and more our nation is realizing that if we are to continue enjoying the benefits and blessings of our American way of life we as a nation must give keen attention to conserving the intellectual and vocational talent of our youth. It is conceivable that every young person has some moral obligation to ask himself or herself whether the level and type of education they are considering is the kind which will best equip them to make their unique contribution to the world of the future.

We urge you to consider in advance what a college education will cost you. We urge you to consider how a college education can benefit you. We trust that we can structure for you an environment in which liberal learning will become a pleasant, satisfying life-long experience. To that end and for that purpose we have prepared this Handbook to acquaint you with some facets of our College life and program.

Charles Harvey Miley
Dean of Student Personnel Services

GENERAL INFORMATION

History

The Junior College of Broward County was authorized by the 1957 State Legislature. The Advisory Committee was appointed on October 21, 1959; on the same date the Board of Public Instruction passed a resolution establishing the Junior College. The first President, Dr. Joe B. Rushing, was employed March 17, 1960, and assumed his duties on April 7, 1960.

The first session began on August 30, 1960, when 438 full-time students and 249 part-time students enrolled. Classes were held in the buildings of the former Naval Air Station on the grounds of the Broward County International Airport, Fort Lauderdale, Florida.

Physical Plant

The facilities on the site of the former Naval Air Station are being used until new buildings can be constructed. Adequate laboratories and machines have been installed for course work requiring such equipment.

Purposes

The Junior College of Broward County has as its main purposes:

1. To provide programs which parallel the first two years of degree programs in four-year colleges and universities.
2. To provide educational programs for students who do not plan to complete a four-year degree program but who can profit from the pursuit of a two-year program of general education, semi-professional education and specialized education beyond the high school level.
3. To provide a program for students which will enrich their cultural lives and improve their personal efficiency.
4. To serve all segments of the population by becoming an educational and cultural center for Broward County and South Florida.

Official Standing

The college is accredited by the State Department of Education and approved for Veteran's training. It is authorized to enroll students who hold the Florida General Scholarship for the preparation of teachers.

STUDENT ACTIVITIES

A varied program of scholastic, professional, service, interest, and religious clubs has been developed in response to interests and leadership of the student body. Participation is entirely voluntary and all students are invited to take part. Among the activities included in the program are:

STUDENT SOCIAL ACTIVITIES CALENDAR.

The Director of Student Activities' office maintains a student social activities calendar.

GENERAL INFORMATION — ACADEMIC

Academic Honors. The college recognizes scholastic achievement by publishing two lists: The Dean's List and the President's List. The former includes the names of students carrying 15 or more semester hours (exclusive of activity courses in Physical Education) who have a grade point average of 3.0. The President's List includes students carrying 15 or more semester hours (exclusive of activity courses in Physical Education) who have a grade point average of 4.0. These lists are prepared at the end of the mid-semester grading period and at the end of the semester.

Advisory Grades are submitted to the Registrar's Office at the end of the first nine weeks of the semester. Shortly thereafter these grades are available to the student through their faculty adviser. Grade reports are mailed to the parent or guardian if student is under 21 years of age and unmarried.

Classification. A student who has earned 28 semester hours of credit is classified as a sophomore student.

A student is a full-time student if he carries not less than 12 semester hours (exclusive of activity courses in Physical Education) in a given semester.

Course Load. Students who are employed or who have other time-consuming obligations are urged to consider a reduction in their course load. Generally speaking, a student who has obligations requiring twenty (20) or more hours per week exclusive of his college work should not enroll for more than eight (8) or nine (9) hours of college work. Though this procedure will require more time to complete a degree program, it almost invariably works to the student's long-range advantage and satisfaction.

Course Numbering. Courses numbered 100-199 are intended primarily for Freshmen. Courses numbered 200-299 are intended primarily for Sophomores. Some flexibility in either direction is permissible.

Evening Division. The evening division of the Junior College is an integral part of the college program. It differs from the regular college program only in terms of time of scheduling classes. Every effort is made to make counseling services, recreational facilities, library,

and all other facilities which are available for daytime students available for students enrolling for evening classes. Also, students enrolled for evening classes are subject to the same rules and regulations as daytime students.

It is planned to offer a program in the evening which will make it possible for students to meet all of the requirements for either the Associate of Arts or Associate of Science Degrees. However, students may enroll for evening classes who are not planning to work toward a degree.

Grade Point Average. Grade points are earned and recorded on the following basis:

Grade	Grade Points Per Semester Hour Credit
A	4
B	3
C	2
D	1
F	0

Grade points for credits transferred from other institutions are granted on the basis of the average made by the student on his first semester's work completed at the Junior College of Broward County. Generally speaking, senior colleges or universities will not accept courses for transfer purposes which are not of a "C" level or better.

Students who do not maintain a satisfactory grade point average will be placed on scholastic probation and/or scholastic suspension. (See Page 8.)

Grading System. Final grades for each semester are recorded and preserved. Grade reports are submitted to students and to their parent or guardian at mid-semester and at the close of the semester. Grades are indicated as follows:

- A—Excellent.
- B—Good.
- C—Average.
- D—Passing.
- F—Failing.
- I—Incomplete.
- W—Official withdrawal, no penalty, no credit.
- WP—Official withdrawal while passing, no credit.
- WF—Official withdrawal, while failing, no credit.
- NC—No credit.
- X—Suspended due to excessive absence.

Incomplete Grades. If there is a legitimate reason why a student cannot complete a course within the semester in which he first enrolled in a course for credit he will be assigned a grade of "I" or "Incomplete." This course must be completed within one calendar year of the semester in which the student originally enrolled in the course, or a grade of "F" will be entered on the students permanent record.

Make-Up Examinations generally work to the detriment of the student. Only under certain well-defined circumstances will it be possible for a student to make up a scheduled examination.

Probation. Probationary status may be assigned for academic or disciplinary reasons. Academic probation is the result of unsatisfactory scholarship. It is not a penalty but a warning and an opportunity to improve. It involves: a compulsory reduction of academic load; interviews with the Dean of Student Personnel Services for diagnosis of learning difficulties and attempted remediation of same; and, a required restriction of extracurricular activities. A first year student must pass at least six hours each semester or be placed on academic probation the following semester. A second year student must pass at least ten hours and earn twenty grade points each semester or be placed on academic probation the following semester.

Disciplinary probation is a middle status between good standing and suspension or dismissal. The student remains enrolled but under stated conditions dictated by college policies. Disciplinary probation covers a stated trial period during which it is determined whether the student is returned to good standing as a result of having met the stated requirements or is to be dismissed or suspended at the end of the period for failure to meet the stated requirements.

Schedule Changes. Each student plans his class schedule with a faculty adviser. Students are not permitted to make schedule changes unless there are valid reasons for change. Requests for schedule changes must be initiated with the Registrar's Office before certain stated dates established by the administration. A charge of \$1.00 is made for each schedule change except when the change is made for the convenience of the college.

Suspension or Dismissal. Either status may be assigned a student for academic or disciplinary reasons. Both terms imply involuntary separation of the student from the college. Suspension implies and states a time limit when return to the institution is possible. Dismissal, on the other hand, represents a permanent severance of the relationship between the college and the student.

SCHOLASTIC STANDARDS.

Any full-time student who fails to maintain a grade point average above 1.00 at the end of the first semester of attendance will be placed on "Academic Probation." Failure to improve the grade point average during the second semester of full-time attendance will result in Academic Suspension; achievement of a cumulative grade point average of 1.50 will remove Probation; otherwise, the student will be continued on Academic Probation. A full-time student who is continued on Academic Probation must remove this condition by earning a cumulative

grade point average of 1.75; otherwise, Academic Suspension will result.

Part-time students will be subject to the same regulations at the ends of the semesters in which they complete 12, 24, and 36 semester hours, respectively.

Transfer of Credit. Generally speaking academic credit earned at the Junior College of Broward County or other colleges or universities will be accepted for transfer to another institution of higher learning if: (1) The receiving institution offers the same or similar instruction; (2) The student has made a satisfactory grade in his course work; and, if (3) The student has been a good citizen. Problems in transferring credit from one institution to another frequently arise when a student makes a change in his vocational objective. This is particularly true when a student is making a transfer to or from an area which requires a definite sequence of courses. For this reason students are urged to consider their vocational choice and to avoid a premature or an inadequate choice. Faculty Advisers make every possible attempt to help the individual student work out a program of study which if successfully completed will be acceptable to a senior college or university.

The Junior College of Broward County will accept a limited number of transfer credits provided the college offers the same or similar instruction and the student makes a grade of "C" or better in the course(s) presented for transfer.

Withdrawal from College. Because of the significance of this decision each student contemplating withdrawal from college must schedule an interview with the Dean of Student Personnel Services or the Director of the Evening Division (for Evening Division students). The purpose of this interview is to help the student clarify the implications of his decision and to be certain that this course of action appears to be to the student's present and future best interests. In addition, unmarried students under the age of 21 must secure the signature of their parent or legal guardian on forms to be provided by the registrar's office before they can initiate action to withdraw from college. IF A STUDENT DOES NOT COMPLETE AN OFFICIAL WITHDRAWAL FROM COLLEGE HE WILL RECEIVE A GRADE OF "F" IN EACH COURSE FOR WHICH HE IS ENROLLED. THIS INEVITABLY WORKS A SERIOUS HARDSHIP ON THE INDIVIDUAL IF HE ATTEMPTS TO RE-ENTER COLLEGE AND MAY ADVERSELY EFFECT FUTURE EMPLOYMENT OPPORTUNITIES.

ATTENDANCE REGULATIONS.

Assembly and Convocations. All full-time students are required to attend all assemblies and convocations. These occasions provide an opportunity to orient the student regarding campus activities and to enrich his general educational-cultural background.

CLASS ATTENDANCE

Regular and punctual attendance at all classes and laboratories is required. The college has no established "cut" system. Students are responsible for all assignments and instruction presented.

Each instructor keeps a careful record of class attendance and reports excessive absence to the Dean of Students. Excessive absence is defined as one or more absence than the number of semester hours credit assigned to a given course. For example, four class absences would be considered excessive in a course which carries three semester hours credit. Excessive absence will result in the following entry upon the student's permanent record, "Suspended due to excessive absence."

If a student feels there is a justifiable reason for his absence, he may immediately petition the Dean of Students for reinstatement. He must submit such documentary evidence as may be requested by the Dean of Students to verify the reason for his absence.

CAMPUS FACILITIES.

Administrative Offices are housed in Building A. Administrative office hours are from 8:30 a.m. until 4:30 p.m., Monday through Friday, during the regular school term. Whenever possible students are encouraged to schedule appointments when they wish to confer with the administrative staff. This enables the staff to accomplish more work in less time.

The College Book Store is located in the Student Center in Building B. Textbooks and school supplies are available through this source. In addition, the Circle K, a student service club, will operate the CIRCLE K BOOK STORE during the first three weeks of each semester as a service to students in disposing of second-hand textbooks. Location of the Circle K Bookstore will be announced. A small service fee is charged for handling books to cover expense of the project.

Bulletin Boards for student use are maintained in the student center. The *official college bulletin board* is located in the corridor directly to the west of the library. Students are responsible for information posted on that board within seventy-two (72) hours after the posting date.

Calendar of Events. The official college calendar of events is maintained by the Dean of Instruction. The activity calendar is available in the Director of Student Activities office. All official activities must be submitted to that office two (2) weeks before the date scheduled for the event in order that it can be approved by the student government and the Student Activities Board.

Student Center. A Student Center is maintained for the convenience and comfort of the students. It includes a snack bar, a game area, and a lounge area.

Classroom and Laboratory Space is provided in Building B through G, inclusive.

Faculty Offices are located in Buildings B through G. Each professor posts information regarding location of his office and scheduled conference hours at the beginning of each semester. Whenever possible students are encouraged to consult with professors during these stated hours. This enables the professor to have more time for non-instructional responsibilities.

Health Services. Medical or hospital facilities are not provided by the college. First-aid equipment is available in the Director of Student Activities office, the Physical Education offices, and the health room. In case of accident or illness, the parent(s) or legal guardian is notified immediately.

Library. Crucial to any educational endeavor is an adequate library. Library resources are not to be evaluated solely in terms of the number of books which appear on the shelves. The Junior College of Broward County has library resources which are adequate for their instructional program. It is fortunate to have a librarian who evidences a creative concept of library service. It is anticipated that over a period of time the college will have one of the finest small-college libraries in this region of the country.

Lost and Found. Items which are found on campus should be delivered to the business office. The owner may have same by providing proper identification. Articles not claimed within a reasonable period of time will be disposed of.

Mail. Students are not to cite the college as a mailing address except for correspondence directly related to college-sponsored student activities. The college assumes no responsibility for delivery or forwarding of mail directed to students.

The Student Insurance. The college has contracted with a private insurance agency to provide accident and health insurance for students. The entire expense of the insurance program is borne by the student. A representative of the insurance company will be available at time of registration to interpret the program and accept applications. Claims or requests for information regarding the insurance program should be directed to the company's local agent.

Telephone Service. Pay telephones are installed at strategic locations over the campus. Students are not permitted to use college telephones except in case of a serious emergency. The college will not accept telephone messages or requests to call students to the telephone except in cases of serious illness or death in the student's immediate family.

Use of College Buildings in the Evening must be cleared well in advance with the Director of Student Activities and the Director of Special Services.

Visitors to the campus are always welcomed provided they do not interfere with the instructional program and provided they abide by rules and regulations in effect for students.

COMMUNITY FACILITIES.

Churches. The college feels that spiritual and moral influences have a significant contribution to make to wholesome, well-balanced living. Practically every major religious faith is represented in the Broward County area. Students are encouraged to align themselves with a religious group of their choice.

Housing. Housing facilities are not provided by the college. The college strongly discourages young people under the age of twenty-one (21) from moving into the community to attend college unless they can live with their parents or other relatives.

All unmarried students under 21 years of age must furnish the Dean of Student Personnel Services' office with a statement that their parent(s) or legal guardian(s) are aware of and approve of their housing arrangement. This statement must be submitted on a form provided by the Dean of Student Personnel Services' Office. A similar statement must be provided anytime the student changes residence address.

Recreation resources abound in the Broward County area. Students are reminded that a well-balanced program of recreation can make a genuine contribution to healthy, wholesome living.

Transportation to and from the campus is provided by Fort Lauderdale Transit Lines, Inc. the campus is readily accessible by automobile. Many students have formed "car pools" to facilitate transportation. Students can use one of the bulletin boards in the student center to let it be known whether they desire a ride or riders.

FINANCIAL POLICIES.

Students' financial obligations to the college are on a cash basis. All fees are to be paid at the time of enrollment.

NUMBERS AND CARDS.

IBM Number. Each student, upon entrance, is assigned an IBM number. This number will remain unchanged during his years at the college. It provides a positive means of identification. Students should memorize their IBM number as readily as possible.

I.D. Cards. Each student is issued an I.D. card at the beginning of each semester. Full-time students are issued a type of card which admits the student to certain college functions and entitles him to use of the library. Part-time students are issued another type of card for identification purposes only. If the I.D. card is lost it may be replaced by making application to the business office and paying a fee.

PUBLICATIONS.

Official College Publications include the College Catalog, the Examination Schedule, the Schedule of Classes, and the Student Handbook. These are issued periodically. The student is expected to familiarize himself with the content of these publications and is held accountable for information contained therein.

Student Publications include a bi-weekly newspaper entitled "*The Venetian Crier*" and a yearbook entitled "*Silver Sands*." The cost of these publications is financed in part by an allocation from the student activity fee. The newspaper is available to full-time students free of charge. The yearbook is available to full-time students enrolled for both regular semesters free of charge. Part-time students or students enrolling the second semester may secure a yearbook for a nominal charge.

RESIDENCE ADDRESS, ADDRESS CHANGE, TELEPHONE NUMBER(S).

Students are expected to keep the registrar's office informed regarding their current residence address, mailing address, and telephone number(s). This information is necessary for official communication with the student and for use in the event of an emergency involving the student. Students cannot claim exemption from official information directed to their residence or mailing address if they have failed to keep the registrar's office informed of address changes.

STANDARDS OF CONDUCT.

Introduction. A college education is a privilege, not a right. College students are considered to have reached an age of responsible citizenship and are expected to conduct themselves appropriately both on and off campus.

Each student, by the act of registering for scholastic work at the Junior College of Broward County, obligates himself to obey rules and regulations which the institution formulates. The college reserves the right to discipline or dismiss any student whose conduct is considered unbecoming or detrimental to the college or the community.

Decisions to dismiss a student will be reviewed by the President of the College. The decision of the President of the College is final.

Possession or Use of Any Kind of Alcoholic Beverage is prohibited on campus or at officially sponsored off-campus functions. Failure to abide by this regulation will result in immediate dismissal from the college.

Dress. The college conceives that it is intended to structure an academic environment not a resort atmosphere. Students are expected to abide by conservative standards in dress and personal appearance. Shorts or zorries are specifically prohibited on campus or at college sponsored functions except in physical education classes, or other clearly defined exceptions to this general regulation.

Young men are expected to wear belts if their trousers incorporate same. Young men are expected to wear shirt-tails inside the trousers unless the shirt is specifically designed to be worn outside the trouser. Beards, bizarre moustaches, or unconventional hair styles are not acceptable.

Young women are not to wear their hair in pin curls, except for physical education classes, if necessary.

Eating is to be confined to the student center or other designated campus areas. Students can help improve the general appearance of the campus by attention to disposal of waste materials.

Gambling of any type is specifically prohibited on campus or at officially sponsored off-campus functions. Violation of this regulation will result in immediate dismissal from the college.

Language frequently reveals a student's background. Vulgar or profane language will not be tolerated. Students are encouraged to develop effective oral and written communication as a means of self-enhancement.

Law Enforcement on campus is a responsibility of the Airport Police. Students are expected to give these men the same courtesy and attention they would other law enforcement officers. Students who get into any difficulty with campus or community law enforcement officers are subject to immediate disciplinary action. (See the introductory statement to this section of the Handbook.)

Motor Vehicles. Campus parking facilities are limited. Reserved parking areas for staff and visitors have been established. Special areas have been designated for student parking. Observe the parking signs. Violation of parking regulations may result in a student's parking permit being revoked. Students must register their automobiles with the business office.

Smoking is not permitted in classrooms while class is in session. Safety precautions dictate that smoking be confined to certain specified areas of the campus. Here too, students can help campus appearance by attention to disposal of cigarettes, cigars, etc.

Social Affairs are provided periodically for interested students. Some affairs are restricted to certain campus groups while others are open to the student body as a whole. An attempt is made to provide a varied program of social activities in line with expressed student interests. Students are encouraged to participate in a reasonable number of social activities as a means of improving their socialization which is an important part of college life.

Student Center Conduct is subject to all general rules and regulations of the college. The management of the student center is directly responsible for supervising student life in the student center. If necessary, he has the privilege of disciplining the student or referring the matter to the Dean of Student Personnel Services for whatever action seems appropriate.

STUDENT PERSONNEL SERVICES

One of the major reasons for the existence of the Community or Junior College is its close attention to the needs and aspirations of individual students. This emphasis characterizes the instructional program and is frequently implemented by a variety of student personnel services.

The student personnel services of the Junior College of Broward County aim to help the student: 1. Become progressively more independent in the management of his life and affairs; 2. Make a satisfactory and satisfying adjustment to college life; 3. Work through a choice of life work, a life partner, and a way of life which are satisfactory and satisfying to the student and the society of which he is an integral part. These general aims are accomplished in some measure through the activities outlined in the paragraphs which follow:

Educational, Vocational and Personal Guidance is available to any student upon request. *Educational-Vocational Guidance* is provided through the faculty advisory system and the regular instructional program. These services are supplemented by the staff in the office of the Dean of Student Personnel Services. This office has skilled educational-vocational counselors available to help the student explore himself and the world of work. Tests of interest, intelligence, aptitude, and personality are available where such will contribute to the student's purposeful planning. *Personal guidance* is available through the faculty adviser, the Dean of Women, the Dean of Students, and certain personnel within the psychology department.

Faculty Advisement. Every student is assigned a faculty adviser in keeping with his declared educational-vocational interests or objective. This assignment continues throughout the student's period of study at the college unless the student changes his vocational objective or either person requests a change of assignment.

The faculty adviser is primarily responsible for helping the student work out a program of study in view of the student's abilities, interests, and declared vocational objective.

Financial Assistance. The college attempts to offer students a quality education at a minimum cost. It attempts to help worthy students who experience extreme difficulty financing a college education. However, it cannot assume the responsibility for financing a student's education. Every student should give attention to the cost of attending college and if possible should have sufficient funds on hand to cover his first semester's obligations at time of enrollment.

Several individuals and organizations within the geographic area served by the college have provided scholarship awards and loans to aid worthy students who need financial assistance. Funds available for this purpose should increase as the college grows in size and influence.

The college has been approved for scholarships provided by the Florida State Legislature to encourage students preparing for careers in teaching. These scholarships, valued at \$400.00 per year, are granted to students on a competitive basis. The promise of one year of teaching in the public schools of Florida for each year the scholarship is granted is required. Additional information regarding these scholarships can be obtained from the Superintendent of Public Instruction in the student's county of residence.

The college cooperates with the Division of Vocational Rehabilitation of the State Department of Education in providing financial and other assistance for students with physical handicaps.

A limited number of students will be employed on a part-time basis on the college campus. Information regarding scholarships is available through the office of the Dean of Student Personnel Services. Information regarding loan funds or on-campus student employment is available through the Director of Special Services.

Job Placement Services are intended to serve two groups—those needing employment to continue their college study and those terminating their formal educational program at the college.

The college will not guarantee employment for any student. It is unlikely that it will be able to provide sufficient employment services for all students. Students are encouraged to use their initiative and resources in locating employment and financing their education. Information regarding part or full-time off-campus employment is available through the office of the Dean of Student Personnel Services.

Occupational Information is available through the office of the Dean of Student Personnel Services. This office attempts to maintain a working library of good, current information regarding the world of work.

Orientation is intended to acquaint the student with: campus facilities and services, college rules and regulations, and to assist him in making an adequate adjustment to college life. Though the content of the orientation program will vary from time to time, depending upon demonstrated needs, it will typically consider such topics as: "Planning Study and Recreation," "Note-taking," "Textbook Study," "Use of the Library," and "Examination Skills."

Participation in the orientation program is required of all full-time students during their first semester of residence.

Testing Services are available to students of the college when such services will make a contribution to the students educational, vocational, or personal adjustment. Information regarding testing services is available through the office of the Dean of Student Personnel Services.

STUDY SKILLS

The grades a student accumulate are an interaction of at least five factors, namely:

1. His basic intelligence;
2. His academic background;
3. His motivation;
4. His freedom from pressing personal problems; and,
5. His study skills.

Constructive change can be effected in most of these areas. Study skills are particularly important for the college student. Long hours of study and hard study do not necessarily insure successful study. While it is true that what will work well for one student will not work equally well for another student some general principles for effective study have been clarified over the years as a result of considerable experimentation. If the student needs assistance in this area he is encouraged to consult his instructor(s), his faculty adviser, and/or the Dean of Student Personnel Services.

VETERANS' INFORMATION

The college is certified for the training of veterans. Any veteran who expects to enroll under the provisions of any of the federal laws must be sure that he has cleared the necessary details with the Veterans' Administration and has obtained the required documents from them. Veterans are urged to contact the appropriate Veterans Administration office well in advance of the regular registration period so that necessary decisions may be made before registration.

Any veteran enrolling under Public Law 550 assumes responsibility for all fees out of the monies paid him by the Veterans' Administration.

Veterans must fill out a special form, available in the office of the Dean of Student Personnel Services, and required by the Veterans' Administration at the end of each calendar month of attendance, in order to receive monthly payments from the Veterans' Administration.

Training time under Public Law 550 is computed by the Veterans' Administration as follows:

12 or more semester hours.....	full time student
10 to 11 semester hours.....	$\frac{3}{4}$ time student
7 to 9 semester hours.....	$\frac{1}{2}$ time student
1 to 6 semester hours, less than $\frac{1}{2}$	time student

The veteran who is absent three consecutive school days without notifying the Dean of Students will have his training interrupted and will have to file a certificate of re-entrance subject to the rules and regulations of the Veterans' Administration obtaining at time of application for re-entrance.

VOCATIONAL CHOICE

Vocational choice represents one of the most important and far-reaching decisions a young person will make during his early adulthood. Much of his happiness and success in later life may well depend upon the adequacy of their choice. Though young people are urged to give serious consideration to this matter, this does not mean that the student must know what specific vocation he will enter at the time he enrolls in college. Many young people are not certain concerning their vocational choice at the time that they enter college. Many others make transitions in their vocational choice as they come to understand themselves better and have opportunity to explore the world of knowledge and work. Students who are not certain regarding their vocational choice should enroll for the "General Education" program. This program is designed to help the student explore the world of knowledge. It is relatively easy for a student to make a transition from this program to more specialized programs at a later date. Vocational advisement is available through the Dean of Student Personnel Services' office.
